

Optigen Scientific Precision Instruments and Laboratory Equipment

Optigen Scientific is proud to be supported by quality-focused manufacturing partners in order to provide you with high quality and robust laboratory hardware. We also provide innovative and comprehensive technical and application support for a broad range of research-grade Optilab™ analytical products. These include, but are by no means restricted to:

- Entry-level, cost-efficient UV/VIS spectrophotometers
- Liquid Chromatography
- Gas chromatography
- Ultrasonic cleaners
- Magnetic stirrers
- Shaking devices
- Peristaltic pumps
- Vacuum pressure pumps
- Drying hot block instruments
- Water baths
- Shaking water baths
- Electronic balances
- Single and multichannel pipettes
- Pressure Blowing Concentrators

Liquid Chromatography

Features of the Optigen Scientific Precision Instruments and Laboratory Equipment Include:

- Rapid delivery and installation (if required)
- Simple operation
- Superb analytical performance
- Enhanced productivity
- Best value
- Ongoing local product and specialist application support
